

Tomi Hemminki

Work Experience

Metropolia university of applied sciences

10/2021 -

- Automation laboratory assistant for the Machine Automation department

I am responsible for installing and testing laboratory equipment and designing assignments for other students. My duties also include solving networking problems, electrical engineering and regular progress-reporting to the head of a laboratory. I work mainly with Siemens hardware in the TIA - portal.

Lionbridge Technologies, INC.

04/2020 - 12/2021

- Search Engine Evaluator

Manual quality assessment of search engine. My duties included search and ads evaluation for text, image, video and audio queries according to Google search quality guidelines.

Shar.IT, Russia

05/2021-08/2021

- Technical Support Intern

My duties included setting up a server for company mailing using msExchange and installing office equipment. I worked under the guidance of another employee.
